CLAIMS

subai7 5

In a document delivery system having a document capable of being operatively coupled to a printing device, a method of printing the document on the printing device comprising the steps of:

storing a print schedule;

automatically requesting, without user intervention, the document based on

10 the print schedule;

transmitting the document to the printing device; and automatically printing, without user intervention, the document on the printing device.

15 2./

The method of claim 1, further comprising the step of: storing a user profile.

Jowaz/3.

20

3. The method of claim 2, further comprising the step of: responsive to printing the document on the printing device, updating the user profile.

4. The method of claim 3, further comprising the step of: responsive to the updating step, subsidizing a product for a user.

 b/m^{25}

5. The method of claim 4, wherein the subsidizing a product step further comprises the step of:

sending a print consumable to the user.

6. The method of claim 4, wherein the subsidizing a product step further comprises the step of:

sending a coupon for a free print consumable to the user.

7. The method of claim 4, wherein the subsidizing a product step further comprises the step of:

sending a coupon for a reduced price print consumable to the user.

5 8. The method of claim 4, wherein the subsidizing a product step further comprises the step of:
sending printable media to the user.

9. The method of claim 4, wherein the subsidizing a product step further comprises the step of:

sending a coupon for printable media to the user.

10. The method of claim 4, wherein the subsidizing a product step further comprises the step of:
sending a second printing device to the user.

11. The method of claim 4, wherein the subsidizing a product step further comprises the step of:
sending a coupon for a second printing device to the user.

12. The method of claim 2, further comprising the steps of: including advertising content into the document.

13. The method of claim 12, wherein the step of including advertising content
further comprises the step of:
personalizing the advertising content based on the user profile.

14. The method of claim 2, wherein the step of transmitting the document further comprises the step of personalizing the content of the document based on the user profile.

10

- The method of claim 13, further comprising the step of: responsive to the printing step, updating the user profile.
 - 16. The method of claims 15, further comprising the step of: responsive to the updating step, subsidizing a product for a user.
 - 17. The method of claim 16, wherein the subsidizing a product step further comprises the step of:
 sending a print consumable to the user.

18. The method of claim 16 wherein the subsidizing a product step further comprises the step of:
sending a coupon for a free print consumable to the user.

- 19. The method of claim 16, wherein the subsidizing a product step further comprises the step of:
 sending a coupon for a reduced price print consumable to the user.
- 20. The method of claim 16, wherein the subsidizing a product step further comprises the step of:
 sending printable media to the user.
- 21. The method of claim 16, wherein the subsidizing a product step further comprises the step of:
 sending a coupon for printable media to the user.
- 22. The method of claim 16, wherein the subsidizing a product step further comprises the step of:

 sending a second printing device to the user.

25

23. The method of claim 1, wherein the document is capable of being operatively coupled to the printing device via a network, the automatically requesting step further comprises the steps of:

entering a disconnected state where the printing device is not operatively coupled to the network;

monitoring the print schedule in the disconnected state; and responsive to the monitoring step, entering a connected state where the printing device is operatively coupled to the network.

- 10 24. The method of claim 23, further comprising the step of:
 after execution of the automatically printing step, re-entering the
 disconnected state where the printing device is not operatively coupled to the
 network.
- 15 25. The method of claim 1, wherein the document is capable of being operatively coupled to the printing device via a network, further comprising the steps of:

checking whether the printing device printed the document using a latest version of a printing module;

determining that the latest version of the printing module was not used, responsive to the checking step; and

downloading the latest version of the printing module via the network, responsive to the determining step.

- 26. The method of claim 25, further comprising the steps of: informing a user that the latest version of the printing module is available; asking the user whether they would like to have the latest version of the printing module downloaded; and
- performing the downloading step only if the user indicated in the asking step that they would like to have the latest version of the printing module downloaded.

25

20

- 27. The method of claim 1, further comprising the step of: retrieving the document from an electronic device connected to the printing device.
- 5 28. The method of claim 1, further comprising the step of:
 retrieving the document from a personal computer connected to the printing device.
- 29. The method of claim 1, further comprising the step of:
 retrieving the document from a content provider coupled to the printing device via a network.
 - 30. The method of claim 1 further comprising the step of retrieving the document from a document server coupled to the printing device via a network.
 - 31. The method of claim 30, further comprising the step of:
 the document server assembling the document from a plurality of content providers.
 - 32. The method of claim 31, further comprising the step of:
 the document server inserting advertising into the document from an advertising provider.
- 25 33. The method of claim 3, further comprising the steps of:
 the document server inserting personalized advertising into the document
 from an advertising provider based on the user profile; and
 retrieving the document from the document server coupled to the printing
 device via a network.

30

- 34. A business method, comprising the steps of:
 monitoring the usage of a printing device; and
 subsidizing the purchase of a product, based on the monitoring step.
- 5 35. The business method of claim 34, wherein the monitoring step further comprises the step of:

 updating a user profile to indicate that a document has been printed for a user.
- 36. The business method of claim 35, wherein the updating step indicates that advertising in the document has been printed.
 - 37. The business method of claim 34, wherein the monitoring step further comprises the step of:

updating a user profile to indicate the amount of ink that was used when a document was printed.

38. The business method of claim 37, wherein the updating step further comprises the steps of:

updating the user profile to indicate the amount of each of a plurality of different colored ink that was used when a document was printed.

- 39. The business method of claim 34, wherein the product in the subsidizing step is a print consumable.
- 25 40. The business method of claim 34, wherein the product in the subsiding step is printable media.
 - 41. The business method of claim 34, wherein the product in the subsidizing step is a second printing device.
 - 42. The business method of claim 34, wherein the product in the subsidizing step is a subscription.

- The business method of claim 34, wherein said subsidizing step is funded by 43. advertising revenue.
- The business method bf claim 34, wherein said subsidizing step is funded by 44. 5 distribution revenue.
 - 45. The business method ϕ f claim 43, wherein said subsidizing step is funded by distribution revenue.
 - 46. The business method of claim 35, further comprising the step of providing information about the document that was printed for the user to an advertising provider.
 - The business method of claim 35, further comprising the step of providing 47. information about the document that was printed for the user to a content provider.
 - 48. The business method of claim 46, further comprising the step of providing information about the document that was printed for the user to a content provider.
 - 49. An apparatus for printing a document, comprising:
 - a document server;
 - a printing device, operatively coupled to the document server;
 - a print schedule, operatively coupled to the printing device, that monitors when the document should be printed by the printing device;

the document server automatically transmitting, without user intervention, the document to the printing device, responsive to an indication from the print schedule; and

the printing device automatically printing, without user intervention, the document on the printing device.

20

- 50. The apparatus of claim 49, further comprising:
 a network operatively coupled between the document server and the printing device.
- 5 51. The apparatus of claim 49, further comprising: a user profile stored on the document server.
 - 52. The apparatus of claim 51, wherein the user profile further comprises: an indication that the document was printed by the printing device.
 - 53. The apparatus of claim 52, wherein the user profile further comprises: an indication that the document contained an advertisement.
